

Self-Introduction

Good morning, dear professors. My honor to stand here to introduce myself. My name is _____, my hometown is located in _____, _____ province. It's a very beautiful city, perhaps the most famous places are _____ and _____. I'm graduated from _____ University in 2012. My major is _____.

Generally speaking, I am a studious student especially when doing the things I am interested in. Last year, when I found learning computer science very interesting, I made the decision to attend this exam, although some friends of mine think I am crazy, however, I just want to have a try. In order to get through the postgraduate examination, I have prepared so much in the past year. With my perseverance, also my parents' and friends' supports, I luckily passed the first round. Of course, I am not specialized in this field, but I think if I were enrolled, I will concentrate on this field, form a systematic view of it, and make a solid foundation for future profession. I have the confidence that I will do better in the future. And I will try my best to finish it no matter how difficult it is.

Of course, in my spare time, I often play Chinese chess with roommates. Also I like reading books, listening to classical music and making friends. However, I am not really outgoing, especially when facing a group of people, so it does feel nervous. En..., that's all, thank you so much for your attention.

尊敬的老师，

早上好！

很荣幸能参加这次面试，我叫_____, 来自_____。我于 2012 年 6 月毕业于_____大学_____专业。

总的来说，我是一个做事认真、成熟稳重的人。在学习上，我认真刻苦，但也讲究策略和方法，也曾因此获得过国家励志奖学金。大学期间，我在本科所学的专业上花了大量的时间，打下了坚实的专业基础；与此同时，我也曾担任过班级的团支书和 09 级学生教员。我喜欢帮助他人，在这个过程中我收获了快乐，同时也磨练了自己的吃苦耐劳的品质。当然，我也有自己的爱好，喜欢象棋和经典的歌曲，也喜欢看书交友，这些都使得我的生活过得很充实。

毕业后的这两年，一直没有找工作而选择了考研，尽管前两次不是很理想，但是我并没有气馁。当然，这离不开家人对我的支持以及好友对我的鼓舞。现在我很荣幸能参加这次复试，我内心很激动。但是我觉得这对于我这个跨专业的考生来说，这才刚刚开始。如果我有幸进入记信院读书，我将集中精力于本学科的学习和研究上。希望自己能通过 3 年的学习形成系统的认识，并为以后的职业打下坚实的基础。

谢谢！
